## Traffic Control May Cause Delays over Bear Creek Bridge

**Colusa County** – The California Department of Transportation (Caltrans) is alerting motorists that one-way traffic control will be in effect seven days a week, 24 hours a day at the Bear Creek Bridge on State Highways 20 and 16 starting at 6 a.m. on April 25, 2009 and continuing until May 22, 2009 at 2 p.m. Changeable message signs have been placed along the highway to alert motorists.

The traffic delays will be approximately 20 minutes, however, due to volume, delays on Fridays and Sundays may reach up to 30 minutes.

The work is part of an \$8 million dollar project to improve the roadway and replace the current 217-foot bridge with a 250-foot bridge on a new alignment.

Unexpected weather may prolong or cause the work to be rescheduled. Caltrans urges all motorists to use caution in this area and to "Slow for the Cone Zone".
